### A Letter of Introduction

Welcome to the KING AEROSPACE Commercial Corporation (KACC) pressroom. Here you'll find media contact information, the latest news coverage, press releases, executive team bios and how we work daily to deliver employee and customer satisfaction through servant leadership.

We strive to exceed the expectations of our clients by adhering to the KING AEROSPACE Cornerstone Principles which support and fortify our company mission: to make a positive difference in the lives of those we employ, we serve, we encounter and earn a fair profit.

We hope you find what you're looking for here, such as helpful information on corporate aviation, V VIP completion services and luxury aircraft interiors. We also hope that you are inspired to cover stories about some of the more unique qualities that make KACC a world-class company with which to entrust your business. A few examples:

We have a five-star restaurant at our Ardmore, Oklahoma facility that every employee, customer, guest and local resident can enjoy Monday through Friday. It's called JAKE'S JOINT – and you're welcome to join us for a wonderful meal, too. Call Pat Brooks at 972-248-4886 for a tour of our Ardmore facility. After walking the campus, you'll be greeted with a culinary experience that rivals even the finest restaurants.

Also located at our Ardmore, Oklahoma facility is a comfortable place for pilots and their passengers to stop and refuel. We call it THE LINE SHACK, which specializes in aviation fueling services for transient, commercial, corporate and military/ government aircraft. THE LINE SHACK provides the facilities, qualified personnel and capabilities to support single engine-type aircraft, military aircraft and corporate business jets – even large Boeing-type aircraft.

There are many more stories to share – we would find it a blessing to hear from you.

Respectfully Yours,

Jerry Allan King-Echevarria (JAKE)  
Founder & President  
KING AEROSPACE Commercial Corporation

## About KACC

**Aircraft Avionics, Completions, Engineering, Maintenance, Modifications, Paint. It's What We Do Best.**

KING AEROSPACE Commercial Corporation (KACC) is dedicated to meeting schedules, budgets and quality standards to ensure customer satisfaction. For more than 20 years, the owner of KING AEROSPACE and his team have been dedicated to providing high quality aviation services to the V VIP community. What makes KACC unique is that it limits the number of projects it will accept in order to be able to deliver the personalized service and attention to detail that once was the true standard in the V VIP Completion and Service industry.

## Services

### Avionics:

- The most talented technicians in the aviation industry.
- Involved in some of the most complex V VIP projects ever created.
- Experienced in the upgrading of current systems and installing state-of-the-art systems.
- Highly sensitive to V VIP security, protection and communication requirements due to expertise in military aircraft missions.
- Familiar with all aspects of cabin management and entertainment systems.

### Completions:

- Personalized attention to meet all of the needs of the operators of V VIP aircraft.
- Over 30 years of experience in V VIP completions.
- The founder of KING AEROSPACE Commercial Corporation (KACC), Jerry Allan King-Echevarria, is personally involved in every project to ensure that his commitment to customer service, quality, on-time delivery and the positive development of long lasting relationships is always maintained.
- KACC strategically limits the number of aircraft in the completion process to ensure personalized attention and customer satisfaction.

### Engineering:

- KACC engineers have worked at virtually all of the major completion centers and some have even worked for the aircraft manufacturers.
- Each project is meticulously tailored to meet the client's personal requirements with a focus on comfort, durability, reliability and serviceability.
- Engineering team works closely with interior designers to ensure that design aesthetics are maintained and all necessary certifications are timely and easily obtained.

## Services Continued...

### **Maintenance:**

- Completion center is a FAA-approved maintenance facility.
- Certified by several international aviation regulatory agencies.
- Maintenance technicians fully understand the importance of preserving and protecting all aspects of clients' VVIP aircraft when maintenance is performed.
- Production planning department and project management keep customers advised of progress to ensure on-time delivery and no budget surprises.
- Provides clients with offices adjacent to their aircraft to allow them the opportunity to have full visibility of the work being performed.

### **Modifications:**

- Rich heritage in the design, fabrication, installation and certification of a wide range of unique and special aircraft modifications.
- Been involved in projects that have included Jacuzzi tubs, beds that stay level in flight and other countless classified modifications.

### **Paint:**

- Recognized as the leader in quality aircraft paint work.
- Routinely supports clients and aircraft manufacturers with their most challenging paint requirements.
- Have set the standards for quality and offer a three-year paint warranty.
- Provides clients with computer-generated renderings of proposed paint schemes to ensure the desired look is achieved.

### Executive Profiles

#### **Jerry Allan King-Echevarria**

*Chairman and Founder*

Mr. King possesses over 30 years of Military, Commercial and Corporate aviation management experience. Prior to founding the KING AEROSPACE Companies in 1992, he was President and Chief Executive Officer of Associated Air Center. Under his direction, Associated Air Center grew from 80 employees to over 400. Mr. King has a Bachelor of Business Administration and a MBA in Business Administration. He is a licensed pilot and served for 18 years as a Board Member of the Dallas Boys and Girls Club.

#### **Keith Weaver**

*Executive Vice President*

Keith is a Certified Public Accountant who has been involved in the financial and administrative management of the KING AEROSPACE Companies for over 15 years. Keith is familiar with all aspects of Government Contracting including audits, reports, proposal preparation, cost analysis, rate analysis, subcontractor negotiations and program administration. Keith is also familiar with both Government, Federal Acquisitions Requirements (FAR's) and FAA rules and guidelines regarding program and aircraft operations. Most important of all, Keith understands the KING AEROSPACE commitment to customer and employee satisfaction.

#### **Rob Burchett**

*Director of Business Development Technical Services*

Rob began his aviation career as a degreed mechanical engineer working for KING AEROSPACE with the USAF E9A missile-testing program. Rob's engineering background combined with his 15 years of experience at KING AEROSPACE overseeing the design, engineering, fabrication and certification of special mission aviation products allows him to fully understand the most complex aviation requirements. Rob often serves as a Project Manager in support of a wide range of airborne and ground research and development programs. Rob provides a true sense of program ownership necessary to meet budgets, schedules and customer expectations with "No Excuses."

### JAKE'S JOINT (TIF)

#### Download file

Image file type of JAKE'S JOINT logo in color with white background to be used for web.

Jerry Allan King-Echevarria (JAKE) has operated an aircraft maintenance and customizing company on the Ardmore Airpark since 1993. Over the years, several independently owned restaurants have opened and closed on this site, often leaving those at the Airpark with no alternative but to drive several miles away to the closest eateries. JAKE wanted a place where he, his employees and clients could get a good meal at a reasonable price without having to drive a long distance.

A team of renowned Chefs and a couple good old country cooks were retained to develop a menu of JAKE's favorite meals. The items on the menu are served at his ranch, home and favorite restaurants. When you order an "alcoholic drink" at JAKE'S JOINT it is going to be JAKE's very own Puerto Rican Bacardi Superior Rum in a tall glass with two limes and diet coke. JAKE hopes that you enjoy your meal, but it's to his standards and no one else's! Needless to say that is why the place is called JAKE'S JOINT where it's truly "Food Fit For a King!"
